PROFILE

With over 7 years of experience as a dynamic and skilled Full Stack Developer, I have honed my expertise in developing scalable web applications across a broad spectrum of technologies, including Laravel, Node.js, Vue.js, Redis, Docker, and Socket.io. My proven leadership abilities have guided complex projects from inception to successful completion. My portfolio includes the creation of a fully-functional auction website, showcasing my adeptness in real-time data processing and user interaction, further solidifying my commitment to delivering high-quality, impactful software solutions.

EXPERIENCE

Jan 2025 — Present

Senior Software Engineer, String

Riyadh

- Built multi-tenant marketing-automation SaaS for omnichannel campaigns.
- Implemented social integrations: Meta Graph API, TikTok Business API, Snapchat Marketing API (OAuth 2.0, token rotation, rate limits, signed webhooks).
- Delivered unified posting & analytics: normalized post model, UTM capture, KPIs, scheduled publishing.
- Shipped cross-channel automation workflows (social, WhatsApp, email, SMS).
- Ensured tenant isolation, RBAC, tenant-aware queues, usage metering, per-tenant billing.
- Improved reliability: idempotent jobs, retries/DLQ, monitoring/alerts; scaled to high daily post volumes with low failure rates.
- Collaborated on landing page/form builders feeding CRM and journeys.
- Stack: Laravel, Node.js/TypeScript, Vue.js, Redis, MySQL/PostgreSQL, Docker, CI/CD.

Sep 2022 — Jan 2025

Senior Software Engineer, Dar Auction

Dubai

- Championed the adoption of agile development methodologies, including daily stand-ups, sprint planning, and retrospectives, to boost team productivity and efficiency.
- Developed and maintained a high-performance, scalable, and secure API using Laravel, underpinning the system's reliability.
- Conceptualized and executed a real-time auction application using Socket.io, facilitating live updates for bidding activities.
- Spearheaded the Vue.js website development, collaborating with designers and stakeholders to create a user-friendly and engaging experience.
- Managed the server setup, project deployment, and CI/CD pipelines configuration, significantly improving operational efficiency.
- Oversaw Docker environments, ensuring consistent, reliable, and scalable application deployments.
- Successfully launched the project from inception to a fully operational state, showcasing technical leadership and a commitment to excellence.

Feb 2021 — Sep 2022

Senior Software Engineer, Stallion ai

Cairo

- Developing applications related to artificial intelligence.
- Code refactoring and upgrade from Laravel 5.7v to Laravel 8v with efficiency and speed.
- I was ranked as Hero of the month of May 2021 by the company.
- Transferring storage to S3 instead of local storage.

Dec 2020 — Feb 2021

Full-stack Developer, Grow Up!

Lebanon

I built an e-commerce system from scratch through a freelance contract

Jan 2018 — Jan 2021	Senior Software Engineer, 404Developers	Syria
	• Full stack Web app and mobile app developer • API creation • Managed complex projects from start to finish • Conduct day-to-day project coordination, planning, and implementation across multiple teams • Create functional and technical application documents • UI Enhancements • Data overview and filtering • Dashboard, reports and charts generation • System debugging.	
Sep 2017 — Nov 2020	Training Specialist, Sanaya	Syria
	• Trained many computer engineering students • Workshops on several projects • Training courses: Java, mobile application programming and web design using Laravel	
Sep 2014 — Nov 2017	Software Engineer, Blue Ray Store	Syria
	• Programming Fire protection systems • Programming an automation system for Blue Ray • Design a private network for clients	

EDUCATION

	Bachelor's degree, Computer Engineering, Ebla Private University
2012 — 2015	Technological Institute of Computer Engineering, Networking Section, University of Aleppo

C++ - Sololearn

JAVA - Sololearn

SQL - Sololearn

PHP - Sololearn

C# - Sololearn

HTML Fundamentals - Sololearn

Exceptional efforts in training many courses - Sanaya-est

Web Design - New Horizons Computer Learning Centers

Advanced Programming Using C# & SQL - CPC

Android Application Programming - CPC

AWS Fundamentals: Going Cloud-Native - Coursera

SKILLS	Java	JavaScript
	Laravel	Socket.io
	Research Skills	Vue.js
	Project Management	MySQL
	PHP	Docker
	Node.js	NuxtJS
